

When oh When is it all going to end. Seems like when we Working Class People get something we like and works for us, Some body wants to take it away. I Am a long haul truckdriver and travel the Indiana and Illinois Corridor and if it was not for the traffic and weathers reports updated regularly I would be up Shits Creek!!!!!! its about time we Take a stand against big Business!!!! I Have 4 Raidos on my account and planing to add a fifth. This works better than any am-fm thing in the past. The Updates keep me and my truck running and making my del on a timely fashion. And no way should the Nab's have any thing to say about it! Thank you X-M For making my life Easier
